Objective

Aspiring software developer with a strong foundation in front-end development and problem-solving skills. Seeking to leverage my technical expertise and project experience in an internship position at Uber to further enhance my skills and contribute to impactful projects.

Education

B.Tech in **Information Technology**

ABES Engineering College, Ghaziabad

CGPA: 9.34 (First Year)

Year: Second Year (Semester III)

Skills

- Front-End Development: HTML, CSS, JavaScript

- Programming: Data Structures and Algorithms in C++

- Database Management: SQL(Learning)

- Learning: Backend Development

Projects

1. Local Crime Reporting System

- **Overview**: A web application designed to promote community-level awareness about local crime rates.
- **Technologies Used:** HTML, CSS, JavaScript, SQL
- **Role:** Led the front-end development of the application, ensuring an intuitive and visually appealing user interface.

2. Eduford

- **Overview:** A mini-project website for exploring online technical courses, designed to simplify access to educational resources.
- **Technologies Used:** HTML, CSS, JavaScript
- **Role:** Solely developed and deployed the website, focusing on user experience and responsiveness.

Achievements and Activities

- Active contributor to open-source projects and personal repositories on GitHub.

- Led the front-end development of a team project in the Local Crime Reporting web application.

Additional Information

- Open to relocating for the internship position.

- Interested in exploring challenging projects that integrate front-end and back-end development for impactful solutions.

Declaration

I hereby declare that the information provided is true to the best of my knowledge and belief.
